

**LEED 2009 for New Construction**  
**Credit contributions: 8 points**

**Materials and Resources**

---

- |                               |  |
|-------------------------------|--|
| <p><b>MR 6</b><br/>ID 1.1</p> | <p><b>Rapidly Renewable Materials, 2.5%</b><br/><b>Rapidly Renewable Materials, 5%</b><br/>Our bamboo is harvested within 4 years, easily besting the requirement of 10 years for this credit.</p> |
| <p><b>MR 7</b><br/>ID 1.2</p> | <p><b>Certified Wood, 50%</b><br/><b>Certified Wood, 95%</b><br/>Our bamboo is FSC-certified.</p>  |

**Indoor Environmental Quality**

---

- |                      |  |
|----------------------|--|
| <p><b>EQ 4.1</b></p> | <p><b>Low-Emitting Materials, Adhesives &amp; Sealants</b><br/>Our recommended primer and adhesive products comply with the low-emitting VOC limits defined in this standard.</p>  |
| <p><b>EQ 4.2</b></p> | <p><b>Low-Emitting Materials, Paints &amp; Coatings</b><br/>Low-emitting stains and finishes, as prescribed in our instructions, are easily available nationwide at stores such as Sherwin-Williams.</p>   |
| <p><b>EQ 4.4</b></p> | <p><b>Low-Emitting Materials, Composite Wood &amp; Agrifiber Products</b><br/>Our unique paperbacked sheets provides you with wood and grass-covered surfaces without risking a violation of this standard. No composite wood or agrifiber products are required, removing the risk of non-compliance.</p> |

**Innovation and Design Process**

---

- |                      |   |
|----------------------|---|
| <p><b>ID 1.3</b></p> | <p><b>Innovation in Design</b><br/>SR Wood's revolutionary paperbacked sheets are a greener and safer substitute for traditional veneer panels. Substantially less energy and material resources are consumed in the manufacturing and transportation of Bamboo paperbacked sheets.</p> |
