

LEED 2009 for New Construction

Credit contributions: 8 points

Materials and Resources

MR 6 **Rapidly Renewable Materials, 2.5%**
ID 1.1 **Rapidly Renewable Materials, 5%**
Our backing material is cotton, harvested annually.

MR 7 **Certified Wood, 50%**
ID 1.2 **Certified Wood, 95%**
We offer several FSC-certified species for Friendly Harvest.

Indoor Environmental Quality

EQ 4.1 **Low-Emitting Materials, Adhesives & Sealants**
Our recommended primer and adhesive products comply with the low-emitting VOC limits defined in this standard.

EQ 4.2 **Low-Emitting Materials, Paints & Coatings**
Low-emitting stains and finishes, as prescribed in our instructions, are easily available nationwide at stores such as Sherwin-Williams.

Innovation and Design Process

ID 1.3 **Innovation in Design**
SR Wood's revolutionary wallcovering product is a greener and safer substitute for traditional paneling. Substantially less wood and energy is consumed in the manufacturing and transportation of Friendly Harvest Wallcovering.

ID 1.4 **Innovation in Design**
SR Wood's revolutionary Friendly Harvest product is a greener and safer replacement for traditional natural wood products. Exclusive use of rapidly renewable plantation-grown timber minimizes the impact of the world's forests and reduces transportation costs and energy, and the reconstituted designs replace the use of exotic trees from tropical rain forests.
